Subject: RE: NFB Request for a New Task Order

Clause EPA-I-16-102 Procedures for Issuing Task Orders for Superfund Emergency Response and Removal Services reads in part as follows:

- (a) Contractor performance shall be authorized by orders issued in accordance with the ORDERING – BY DESIGNATED ORDERING OFFICERS clause.
- (b) Nothing contained in this contract shall prohibit the Government from placing other orders or contracts for the same or similar services.
- (c) Contractor performance will be ordered by the contracting officer through the issuance of individual task orders. All task orders issued will be fixed-price or at the fixed rates specified in the contract.
- (d) In the event of an emergency, a warranted on-scene coordinator (OSC) or contracting officer (CO) may issue a verbal order, to be followed up with a confirming written task order within five (5) working days of verbal notification.

The Ordering By Designated Ordering Officers clause states in part:

- (a) The Government will order any supplies and services to be furnished under this contract by issuing task/delivery orders on Optional Form 347, or any agency prescribed form, from the effective date of the contract through the expiration date of the contract.

So in an "emergency" we have the authority to issue a verbal order. Otherwise, we are in violation of the contract terms and conditions.

Subject: Re: NFB Request for a New Task Order

Thanks. Just to clarify. If the OSC receives a verbal (May 13) and the contractor selected....a verbal cannot be submitted to ERRS to start coordinating/planning?

Thanks

Regards,

Eric

Eric,

Since we “initiated” the first steps to beginning work at this site in September 2015, it does not fall within the parameters of an emergency procurement. Therefore, we do not have the authority to issue a verbal task order to mobilize the emergency response contractor to the site. We will issue a task order to Guardian when we receive the funded Requisition.

Thanks. Is there any way to send a verbal to Guardian so we can start planning? The RM and safety officer are here at Aberdeen training with me. Also, I heard the John Bachman is out of the office. The ERRS crew needs to travel on Monday. Reserve hotels and vehicles. Make calls to subcontractors, etc.

Thanks

Regards,

Eric

John,

EAS Request # 00233, in the amount of \$300,000, is being requested for a new Guardian Task Order, proposed to be # 023, the Niagara Falls Boulevard Site. The four digit Zipcode for this Site **14304-4909**. The ERRD Director verbally authorized a total project ceiling of \$600,000, of which \$500,000 was for mitigation contracting on May 13, 2016. The funding is necessary to initiate a removal action to dispose of radioactive contaminated waste at the Site. A SOW and IGCE Selection form are attached here for reference and are also attached

to the EAS request. Eric Daly is the OSC of record for this Site. The FOA requirement for this Site has been satisfied. Both ERRS contractors submitted a response to the FOA notice on September 21, 2015. Their responses were incorporated into the ERRS Selection form attached. Eric is planning to mobilize on May 23, 2016.

Please contact Eric or myself should you have any questions regarding this request.

Thanks in advance for your help,

Mark
